This heifer is a maternal sibling to our most talked about yearling bull of 2022. Our SAV Raindance son was retained into the herd to continue quality improvement, but was admired by every visitor of Dawson Angus. This dam is a full sibling to our 'Dawsy' cow, the Res. Champion at both NWSS and NAILE. This family line has proven itself for over a decade, and continues to impress us each year. This March heifer will be competitive not only in her division, but for show titles. Her dams longevity (10 years old) has

passed down to many daughters, and will allow this heifer to be a top producer for any herd for years to come.

This dam is one of our longest in production, at 13 years old she is set to calve again in 2022 for an early March calf. This is the type of cow power you can take to the bank, these are the money making genetics every herd needs. This heifer exemplifies that cow power, that level of soundness that makes 13 year old cows, that easy handling nature that makes you want her to last 13 years.

This heifer brings about the best of her dam and sire. Her dam is one of our longest and deep bodied cows with unmatched capacity. Her sire is heavily muscled and one of the thickest Angus bulls I have seen. This heifer is the perfect balance. Evenly deep bodied from flank to chest and thick topped from trailhead to shoulder. Don't let her March birthday deter you, she will quickly rise to the top of your list.
